

Table Health's mission

Redefining health care with transparency, authenticity, and value.

Purpose of this position

Table Health is an established Direct Primary Care practice in need of a physician (MD or DO) in a new location in Northwest Michigan who is interested in a direct primary care practice serving local employer groups and the community. This practice is a low-volume, high-quality membership-based medical setting that does not participate with insurance. Applicants shall be board certified in Internal Medicine/Pediatrics or Family Medicine with experience in general practice, urgent care, office procedures, and/or occupational medicine. This position may also include collaboration with Advanced Practice Providers; group appointments and lifestyle education for members; and research. Direct Primary Care is a membership-based model of care where you can expect to have a smaller patient panel, more time with patients where you create meaningful relationships, freedom from billing stress, better work/life balance, and yet retain or increase current income.

Education/Experience

- Active State of Michigan medical license
- Board-certified in Internal Medicine/Pediatrics or Family Medicine
- Experience with outpatient medical practice
- General medicine, urgent care, emergency medicine, and/or occupational health experience, including office procedures that relate to common medical illnesses and injuries and evaluation of workplace injuries

Work Context, Scope of Practice, and Expectations

- Ability to perform typical outpatient family medicine/general practice physician activities
- Familiar with virtual and phone visits, communicating via secure patient portal, able to travel to worksite locations
- Works autonomously within the scope of practice and credentials providing and managing primary care services for infants, children, adolescents, and adult
- Knowledge of the standards of care concerning the diagnosis and treatment of medical conditions, appropriate preventative care, and education
- Empathetic, compassionate, and willing to see and hear patients needs; possess a high level of emotional intelligence
- Work with employer groups to provide comprehensive family medical care, occupational health, evaluation and treatment of acute injuries, and promote health in the workplace

- Work with other providers, including collaboration with Advanced Practice Providers
- Part time position available
